6+ Years of Experience

PROFESSIONAL SUMMARY

Full stack engineer with 6+ years of experience designing and building responsive, user-friendly web interfaces. Specializing in HTML5, CSS3, JavaScript, React, Next.js, and Laravel, with a proven track record of delivering payment gateways, CMS-driven websites, and admin panels for clients ranging from Government entities to large enterprises (UPL, SBI, Rebel Foods). Comfortable owning a project end-to-end: requirements gathering, client communication, frontend architecture, and delivery. Currently a full-time PHP-Laravel Developer at Rapsys Tech Solutions, available for freelance and contract engagements alongside full-time work.

CLIENT PROJECTS

Project 1: – Healthrageous

Description:

Healthrageous is a US-based client project promoting health and wellness through a dynamic, engaging platform that merges meal delivery with health messaging for Medicare members. Healthrageous Made Easy Meals offers convenient, delicious, and healthy meal options aimed at making healthy living accessible. Prathamesh led the project from the frontend, managing client communication and demonstrating strong ownership.

Client:

Healthrageous Made Easy Meals

Technologies:

React JS

Role:

Sr. React Developer

Responsibilities:

- Led the frontend development, ensuring a user-friendly and engaging interface.
- Collaborated closely with the US client to understand and implement requirements.
- Developed responsive designs to ensure accessibility across various devices.
- Managed client communication, providing regular updates and gathering feedback.
- Implemented frontend solutions using HTML5, CSS3, JavaScript, and React JS.
- Coordinated with backend developers to integrate APIs seamlessly.
- Conducted usability testing to refine the user experience.

Project 2: – United Phosphorous Ltd (UPL)

Description:

United Phosphorous Limited (UPL) is a leader in global food systems, reshaping the industry with OpenAg, driving sustainable growth for all. Prathamesh was the team lead driving the frontend of the project.

Client:

UPL Limited

Technologies:

HTML, CSS, Bootstrap, JS, jQuery, PHP (Laravel Framework), MySQL DB.

Role:

Team Lead

Responsibilities:

- Led the frontend development team, managing tasks and ensuring timely delivery of project milestones.
- Designed and developed user interfaces and site structures.
- Conducted code reviews to maintain high standards of code quality and performance.
- Managed client meetings and presentations to gather requirements and provide progress updates.
- Enhanced user experience through responsive design techniques.
- Structured the site for optimal navigation and usability.
- Integrated third-party website, social media, and application APIs.
- Implemented a CMS for dynamic data entry.
- Utilized CSS animations to improve visual engagement.
- Mentored junior developers, fostering a collaborative and productive team environment.
- Coordinated with cross-functional teams to ensure seamless integration of frontend and backend functionalities.

Project 3: – SBI Payments

Description:

SBI Payments Services provides solutions to merchants for facilitating merchant payments for goods and services through various form factors like Cards, QR Codes, App-based solutions (UPI P2M, YONO Sale & Cash), and Aadhaar-based solutions (Bhim Aadhaar SBI).

Client:

SBI Payment Services Pvt. Ltd.

Technologies:

HTML, CSS, Bootstrap, jQuery, PHP (Laravel Framework), MySQL.

Role:

Sr. Front-End Web Developer

Responsibilities:

- Developed a mobile-friendly website which gives a better user experience.
- Developed an admin panel for data management.
- Integrated payment gateways to enhance the functionality of merchant solutions.
- Implemented a CMS for dynamic data entry and integrated third-party/social APIs.
- Implemented responsive design techniques to improve user experience.
- Mentored junior developers.

Project 4: – Rebel Foods**Description:**

Rebel Foods is the world's largest chain of internet restaurants, powered by an operating system for building and scaling brands globally. The project involved creating a responsive, SEO-friendly website to enhance their online presence and user engagement. Prathamesh led the frontend development effort, focusing on delivering a high-performance and visually appealing web experience, working closely with designers and backend developers to ensure seamless integration and optimal functionality.

Client:

Rebel Foods

Technologies:

HTML, CSS, Bootstrap, jQuery, PHP (Laravel Framework), MySQL.

Role:

Sr. Front-End Web Developer

Responsibilities:

- Developed wireframes and user interfaces for a seamless user experience.
- Ensured responsive design and development for the website, enhancing accessibility across various devices.
- Implemented a CMS for efficient content management, allowing easy updates and modifications.
- Added CSS animations to enhance visual appeal and user engagement.
